## AMUSEMENTS

GLADYS BROCKWELL IN THRILLING PHOTOPLAY

Gladys Brockwell, who will appear today in the William Fox production entitled "Who Started the War," at the Butler theater has been given one of the greatest roles of her career in this strange story of intrigue, crime, love and underground diplomacy. The picture deals with events leading up to the war and with the machinations of the German foreign office. Miss Brockwell plays the part of Countess Griselda von Arenburg, who is first seen as the favorite of the old emperor of Austria and is frowned upon by the royal family. But she meets a gallant young French secret service man with whom she

**Wittenberg Warehouse AND TRANSFER COMPANY**  
Distributor for

Distillate and Lubricating Oils

falls in love. Later she instigates the assassination of Archduke Franz Ferdinand.

When war is declared by Germany, a price is set upon the head of the French secret service agent, but through the aid of the countess he makes his escape, after urging the woman to love to flee with him, but she refuses to jeopardize his safety, and pays the penalty. Added to the feature, is a Mutt & Jeff comedy and a Ford Weekly. Tomorrow, William Russell in "When a Man Rides Alone." Thursday, Clara Kimball Young in "Magna."

## LOSS OF SUGAR HURTS GERMANS

(Correspondence Associated Press) BERLIN, April 4.—The sugar famine from which Germany is now suffering is a mystery perplexing German housewives, as sugar, owing to the beet-root industry, has been a common staple even during the war. Because of the sugar shortage, the nation's supply of marmalade seems to be completely exhausted.

Political and industrial disturbances are blamed for the restricted output of beet sugar. The factories

## GOLD GOING TO BELGIAN BANK

(Correspondence Associated Press) BRUSSELS, April 4.—The official train from Germany which transported to Brussels 220 million marks in gold, carried also 100 million marks in thousand-mark bank notes. Most of these are to be exchanged against their equivalent in bank notes of 50, 20, 5 and 2 and 1 mark denominations out of the seven millions of mark of German money stored in the vaults of the Belgian National Bank.

The exchange is made in response to a demand from the Reichsbank, which lacks bank notes of small amounts.

The train which arrived with the German gold was escorted by 100 soldiers, and a machine gun was posted on each wagon till the train reached the Belgian frontier.

Stock certificates printed and bound on short notice at this office.

Large quantities of sugar are said to have disappeared mysteriously or to have been confiscated by local soldiers and workmen's councils.

## TRAINING FOR THE BIG FIGHT

A big crowd turned out at the Northern this afternoon when Harry Bramer, the champion featherweight of the Pacific coast, went on for his afternoon's workout and much interest has been aroused among the fight fans of Tonopah and southern Nevada that this wonderful little fighter has been engaged to appear in the main event of the Business Men's Athletic club show. The event will be staged at the Airdome on Tuesday night, May 13th, when "Kid" Clare Bromero, one of the oldest and cleverest featherweights in San Francisco, meets Bramer in the main event of the evening consisting of twenty rounds at 122 pounds at 4 p. m. for a purse of \$1000, 60 per cent goes to the winner and 40 per cent to the loser. Billy Shue, the popular Goldfield referee, will be the third man in the ring. The Referee and Announcer, the official fight organ of San Francisco under date of February of this year has the following to say of Bramer: "Harry Bramer has of late years been classed with the top notchers, but it wasn't until his victory over Jimmy Fox, at Dreamland, that he sprang into so much public favor. The result of this win made him the featherweight champion of the coast and captured for him the prize belt offered by Mayor Rolph, Jr., of San Francisco. This bout that made him famous was on a card promoted by the United States navy and staged under the name of the Naval Boxing Tournament. Bramer, in order to win the championship belt, was compelled to fight five hard battles among which were the cleverest boys in the army, marine corps and naval forces of Uncle Sam." Bromero needs no introduction to the fight fans of Tonopah as he has appeared here in a number of bouts with the best boys in his class and during the present month has met Willie St. Clair, Joe Benjamin and Harry Pelsinger in main events around San Francisco. Jimmy Grimes, his uncle, expects to leave San Francisco in time to be at the ring-side next Tuesday night as it was partly through his efforts that the Business Men gave Bromero this important fight.

The administration is now selling its wooden ships which is a fine opportunity for you to get some nice, dry, well seasoned timber.

## RESTORE USE OF THE CHAPERONE

(Correspondence Associated Press) LONDON, April 1.—The chaperone is reappearing in London, after more than four years of absence because of the war. American women, the society leaders say, are responsible, because they want to see London, and independently and self-reliant as they are, they do not want to see it without the assurance that they will be well chaperoned.

The chaperone, once a well established institution in England, lost her calling when women went in for war work. Many a young girl who had never ventured from home without the guiding hand of a chaperone took to driving an ambulance, while others were installed in the "Waacs," the "Ruffs" or some one of the many other women's organizations which had to do with the prosecution of the war. These vigorous young women had no use for chaperones.

The American women who want chaperones also are war workers. Red Cross, Young Women's Christian association aids and others who are here. They, too, are self-reliant and independent, but when they doff their uniforms and go out to see London or spend a part of their very little leisure time in the galleries of the city, they feel they ought to subscribe to the conventions.

## PUBLIC BATHING POOL AT JUAREZ

JUAREZ, Mexico, May 6.—Ciudad Juarez has one of the oldest swimming holes on the American continent. It is the acequia madre, (the mother canal) which irrigates the Juarez valley and furnishes the youths of the town with an ideal swimming place where it ripples under the cottonwood trees from Rio Grande intake to the valley farms. Hundreds of naked Mexican boys may be seen sporting in the muddy waters of the canal on warm spring days. The acequia also serves as a municipal laundry for the housewives of Juarez who do their weekly wash on stones beside the canal which have been worn smooth with many washings.

## MAKING LIMBS FOR THE GREEKS

(Correspondence Associated Press) ATHENS, March 29.—The Balkan commission of the American Red Cross has brought to Athens an American superintendent and assistants with supplies in the rough for making artificial legs. At a Greek workshop in Athens, American workmen are making American artificial limbs and are instructing Greek workmen in the art.

The American workmen have taken temporary charge of the school for the mutilated of the Greek army. A Greek superintendent and Greek workmen can be trained to take over the plant. The artificial legs will be fitted and given to Greek soldiers. It is the intention of the Greek government to see that every soldier who needs one is provided with an American artificial leg.

An artificial limb weighs only four pounds are now being supplied to hundreds of mutilated soldiers who formerly had crude peg legs and cumbersome twenty-pound artificial limbs of another pattern. The joy of these men at being able once more to move around easily is expressed in the American Red Cross workshops by dancing about on their new limbs with expressions of gratitude which, if it were not so joyful, would be amusing.

As a corollary part of this work, the American Red Cross also is supporting a school for the re-education of the mutilated. At this school the disabled are being taught useful trades of all kinds including tailoring, shoemaking, carpentering, metal working, basketry, and stenography and typing. For this latter work, a large number of American typewriters with Greek characters are needed.
